APPLICATION FOR PERMISSION TO CHANGE MANNER  
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE  
STATE OF NEVADA HERETOFORE APPROPRIATED

APPLICANT: Airport Authority of Washoe County

REGARDING: Permit 28821/Certificate 10824

15. Remarks:

Due to the severe drought, dust generation has been increasing at the Reno/Cannon International Airport. Therefore, establishment of dust mitigation vegetation is imperative.

Water, for irrigation of approximately 25 acres of dust mitigation/vegetation at the north end of runways 16L and 16R will be diverted from the drain from the Eastman Ditch (See Maps attached); this water will be replaced downstream by water pumped from the Authority Brookside Golf Course well (28821/10824) to a drainage channel which terminates at the Boynton Slough. Therefore, no downstream water rights are impacted.

(PERMIT TERMS CONTINUED)

A monthly report shall be submitted to the State Engineer and the Federal Water Master within 10 days from the end of each month which shall include the amount of water pumped from both the well and the Eastman Ditch.

A measuring device must be installed and accurate measurements must be taken of the amount of water placed in the Boynton Slough.

Any water diverted from the Eastman Ditch must be replaced by the well water to Boynton Slough at the same time.

The period of use of this permit is limited to April 1 to November 30th of each year.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on November 30, 1993 at which time all rights herein granted shall revert to the right being changed by this temporary permit.
